RESOLUTION CHAPTER _____

Assembly Joint Resolution No. 65—Relative to the National Aeronautics and Space Administration.

LEGISLATIVE COUNSEL'S DIGEST

AJR 65, Scott. NASA: Budget for fiscal year 2001.

This measure would commend the actions of the members of the United States House of Representatives from California to restore full programming for the National Aeronautics and Space Administration (NASA) for fiscal year 2001 and would strongly encourage all members of the United States Congress to actively support NASA funding for fiscal year 2001 in an amount sufficient to fully support and sustain scheduled projects.

WHEREAS, The National Aeronautics and Space Administration (NASA) has dramatically advanced humankind's knowledge of our universe, the Earth, and technological progress over the past half-century of space exploration; and

WHEREAS, More than 7,250 people are employed at NASA's three centers in California—the Ames Research Center, the Dryden Flight Research Center, and the Jet Propulsion Laboratory (JPL) with its 5,200 Caltech employees and a payroll in excess of \$300,000,000; and

WHEREAS, NASA contracts with these centers, including \$350,000,000 with JPL alone, supports thousands of additional jobs throughout the state; and

WHEREAS, NASA and JPL in particular have pioneered breakthroughs in deep space communication, charged-coupled devices, global positioning satellite software, and digital image processing, which in turn JPL has spun off commercially to the direct benefit of the state's economic competitiveness in the communication, navigational, and medical industries; and

WHEREAS, NASA currently spends one-fourth of its entire annual budget in California; and

WHEREAS, California's public and independent universities successfully compete each year for millions of dollars in NASA science and engineering grants and contracts; and

WHEREAS, NASA operates ambitious public education outreach programs throughout the state from its three centers located in California; and

WHEREAS, NASA funding for the missions to Mars and the Space Infrared Telescope Facility (SIRTF), both of which are being managed in the 44th Assembly District, has been restored; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California hereby commends the actions of members of the United States House of Representatives from California to restore NASA's full programming for fiscal year 2001; and be it further

Resolved, That the Legislature of the State of California strongly encourages all members of the United States Congress to actively support NASA funding for fiscal year 2001 in an amount sufficient to fully support and sustain scheduled projects; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the director of NASA.

Attest:

Secretary of State
